CERTIFIED RESTORATION DRYCLEANING NETWORK NAMED THIRD FASTEST GROWING FRANCHISE

BERKLEY, MI, March 27, 2007 --- The Certified Restoration Drycleaning Network (CRDN), an international organization of textile restoration specialists, has earned the rank of #3 on the 2007 list of fastest growing new U.S. franchises, according to Franchise Times magazine. This is the third consecutive year CRDN has been recognized, placing #6 in 2006 after debuting at #4 in 2005.

The magazine's annual "Fast 55" list identifies companies with the fastest unit growth for concepts that started franchising after 1997.

The "Fast 55" list was compiled by analyzing a database of information for public and private companies. The database was provided by FRANdata, the nation's leading independent authority for current, in-depth reports and analysis of the franchise industry which maintains the world's most extensive library and proprietary database of information about public and private franchisors and franchisees.

“The rapid growth of our Network and the recognition of *Franchise Times* validate our concept and the potential of the market niche we serve,” said Wayne Wudyka, CRDN’s CEO. “Over the past five years, we have taken CRDN from concept to reality, providing service to 94% of the United States population, as well as the U.K. and Canada,” Wudyka added.

CRDN works with insurance adjusters, contractors and contents cleaning companies to help homeowners recover from accidents and disasters. On a loss site, CRDN inventories the garments and textiles affected by fire, smoke, water, mold or other contaminants, then restores the items offsite and stores them until the homeowner is ready for the items to be returned. CRDN’s success rate at restoring textiles consistently exceeds 96 percent, and the organization’s services cost 84 percent less than replacing the items.

“We are the only national network with an established protocol for response and service, as well as uniform processes for invoicing and management reports,” noted Wudyka. “Our franchisees have realized the tremendous opportunity to grow their business by joining with other progressive operators who are committed to meeting the distinct needs of the insurance industry, either directly or through local contractors and contents cleaning companies.”

The Certified Restoration Drycleaning Network (CRDN) is an international organization of experienced, highly trained textile restoration specialists who perform insurance restoration laundry and drycleaning services for all types of loss. Adept at restoring textiles damaged by fire, smoke, water or exposure to mold and other contaminants, CRDN members offer an effective, efficient and proven solution for insurance professionals. CRDN currently operates in the United States, United Kingdom and Canada. The organization’s Web site is www.CRDN.com, and claims assignment can be made across the U.S. by calling 1-800-963-CRDN (2736).
